

File No. SS-T017/1/2022-Standard-FSSAI [E4478]

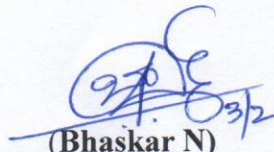

Food Safety and Standards Authority of India
(A Statutory Authority established under the Food Safety & Standards Act, 2006)
Science & Standards Division
FDA Bhawan, Kotla Road, New Delhi – 110002

Dated the 3rd February, 2022

Subject : Direction under Section 16(5) of Food Safety and Standards Act, 2006 regarding declaration of percentage (%) contribution to Recommended Dietary Allowance (RDA) for different age groups.

Reference is drawn to the Sub-Regulation 5(3)(b) of Food Safety and Standards (Labelling and Display) Regulations, 2020, which stipulates labelling of Nutritional Information per 100g or 100ml or per single consumption pack of the product and per *serve percentage (%) contribution to Recommended Dietary Allowance calculated on the basis of 2000kcal energy, 67 g total fat, 22 g saturated fat, 2 g trans-fat, 50 g added sugar and 2000 mg of sodium (5 g salt) requirement for average adult per day*, on the label.

2. In this context, several representations from stakeholders were received regarding declaration of percentage (%) contribution to RDA in case of foods targeted for specific age groups and this concern is under consideration of sub-group constituted by FSSAI.
3. However, as the same is likely to take time and the enforcement of FSS (Labelling & Display) Regulation would begin from 1st July, 2022, *it is clarified that in the case of foods which are targeted to a specific age group or physiological condition, respective RDA's may be considered for declaring per serve percentage (%) RDA - as per the direction F.No. Stds/SP-05/Orders/FSSAI dated 2nd August, 2021 - issued based on the recommended dietary allowance specified by the Indian Council of Medical Research.*
4. This issues with the approval of Competent Authority in exercise of the power vested with Food Authority under section 16(5) of FSS Act, 2006.

(Bhaskar N)
Advisor (Science & Standards)
FSSAI, New Delhi

To

1. ED (CS) with a request to communicate to Food Safety Commissioners of States / UTs & Regional Directors
2. Head (Regulations) / Head (Legal)
3. Director (TICD) – with a request to communicate to all Authorized Officers
4. CITO, FSSAI – for uploading this direction on FSSAI website

Copy for information to:

1. PPS to Chairperson, FSSAI
2. PS to CEO, FSSAI

F. No. Stds/SP-05/Orders/FSSAI
Food Safety and Standards Authority of India
(A Statutory Authority established under the Food Safety & Standards Act, 2006)
(Science & Standards Division)
FDA Bhawan, Kotla Road, New Delhi-110 002

Dated, the 2nd August, 2021

Subject: Direction under Section 16 (5) of Food Safety and Standards Act, 2006 regarding Recommended Dietary Allowances (RDA).

In partial modification of the direction of even number dated 16th July, 2021 on subject cited above, the **Annexure I** of the said direction is revised based on revision of RDA 2020 by ICMR-NIN. The revised **Annexure I** is enclosed for reference and compliance.

This issues with the approval of Competent Authority in exercise of the power vested with Food Authority under Section 16(5) of Food Safety and Standards Act, 2006.

* Adequate Intake (AI)

Note: For adequate intake of Biotin and Pantothenic acid, refer to the text on summary of recommendations.

Collated information on RDA for nutrients not listed under Annexure IA

S. No.	Vitamin	RDA per day
1.	Vitamin E*	7.5-10 mg tocopherol
2.	Vitamin K* (K1, K2)	55 µg
3.	Biotin* (AI)	<ul style="list-style-type: none"> • Adults and pregnant women: 40 µg • Lactating women: 45 µg • Adolescents: 35 µg • Children 4 – 10 y: 25 µg • Children 1 – 3 y: 20 µg
4.	Pantothenic acid* (AI)	<ul style="list-style-type: none"> • Adults and pregnant women: 5 mg • Lactating women: 7 mg • Adolescents: 5 mg • Children: 4 mg

S. No.	Mineral	RDA per day
1.	Phosphorous*	1000 mg
2.	Sodium*	2000 mg
3.	Potassium*	3500 mg
4.	Copper*	1.7 mg
5.	Manganese*	4 mg
6.	Chromium*	50 µg
7.	Selenium*	40 µg
8.	Chloride [#] (AI)	<ul style="list-style-type: none"> • Children 1 to 3 y: 1500 mg • Children 4 to 8 y: 1900 mg • Men & Women (9 y and above): 1800 to 2300 mg • Pregnant & Lactating women: 2300 mg
9.	Molybdenum**	45 µg

[*ICMR (Recommended dietary allowances and estimated average requirements: nutrient requirements for Indians - 2020); **Codex (CAC/GL 2-1985- Guidelines on nutrition labelling (applied only for individuals older than 36 months)); #Food and Nutrition Board, Institute of Medicine, National Academies; AI: Adequate Intake]

Note 1: In case age wise RDAs are available, then RDA values for men and women (sedentary work) may be considered as standard reference or else the single value will be applicable across all age groups.

Note 2: The FSS (Health Supplements, Nutraceuticals, Food for Special Dietary Use, Food for Special Medical Purpose, Functional Food and Novel Food) Regulations, 2016 shall not be applicable to the infants up to the age of 24 months. Hence, RDAs mentioned in this document for the age group 0 to 24 months will not be applicable for the said regulations.

Note 3: Conversion units (referred from report of Expert Committee of ICMR which specifies TUL of micronutrient for Indian population)

- Vitamin A: 1 µg = 3.33 IU
- Vitamin D: 1µg = 40 IU
- Vitamin E: 1mg = 1.5 IU d-alpha-tocopherol, or 1.1 IU dl-alpha-tocopherol
- Folic acid: 1µg = 1.7 DFE (Dietary Folate Equivalent)
