

## Packaged or loose milk is largely safe in India: FSSAI report

November 13, 2018 18:39 pm

A Food Safety and Standards Authority of India (FSSAI) report has stated that packaged or loose milk is largely safe in India. Watch the video to know more.

The video player interface includes a share icon in the top right corner. The main content area features a blue and orange background with the following text in Hindi: 'देशभर के 1100 शहरों से लिया सैंपल' (Samples taken from 1100 cities across the country), 'ये दूध सुरक्षित है' (This milk is safe), and 'पैकेट या कच्चा दूध दोनों सेफ है' (Both packaged and loose milk are safe). A central video frame shows a man in a dark suit speaking into a microphone with the ZEE logo. Behind him is a map of India and a banner for 'Sarat Yatra'. Below the video frame, the text 'ये दूध सुरक्षित है' is repeated. The bottom of the player shows a volume icon, a progress bar at 00:44 / 01:29, the website 'www.zeebiz.com', and settings and full-screen icons.
